

Season Fence Posts Before Preserving

After cutting and peeling fence posts, open pile, or stack them so air will circulate freely around them.

J. T. Galliard, API extension engineer, advises that the bottom of the stack should be raised

at least a foot off the ground. He explains that it takes green posts and timbers 60 to 90 days to dry and season thoroughly after being cut. After this they are ready for treatment.

"It is best for posts not to be left in the woods as they will not dry properly," warns Galliard.

mine, he had seen while prowling around the day, and labeled "Cyanide - Poison." The deadly poison was used in the extraction and refinement of gold.

That night Walter crept to the closest Jap encampment and proceeded to mix the Japs some potent punch, for their breakfast. It was the last drink 500 of them ever took.

The Army checked on that and found it to be almost true. Strictly speaking, the dead ran considerably in excess of Walter's conservative estimate. Closer to seven or eight hundred, investigation disclosed.

More months dragged wearily by, with very little contact with the outside world. Then in 1944, Walter found some Filipinos who had managed to purloin quite a store of Jap radio equipment. MISS FARRISH WINS HONORS IN N. Y. DESIGN SCHOOL

Miss Innis Parrish, daughter of Mr. and Mrs. J. Parrish of New Brockton, who is a student of design at the Traphagen School of Fashion, New York, was recently chosen to take part in a spectacular fashion promenade presenting authentic costumes and glamorous jewelry and accessories from countries around the world. The occasion was the "Silver Jubilee" tea given on September 19th to celebrate the 25th anniversary of Traphagen School's founding.

Among the distinguished guest present were the members of the United Nations delegations and consular generals of many of the nations whose colorful native attire was featured in the unique display.

In honor of this 25th birthday, a Traphagen alumni association has been organized and the program for the tea included the opening of a club room in the school's main building for member's use. Miss Parrish's class will be among the first to have the opportunity of joining immediately on finishing their courses.

Northern Negro Editor Takes Tour Of South

With the Civil Rights issue in the limelight in recent years, much has been written. One of the few Negro editors who has been attracted to an article written by the editor of a Negro newspaper in the North.

Davis Lee, editor and publisher of the Newark, N. J. Telegram, heard and read a lot about the racial problems in the South, 500,000 readers in the South. I

and decided he would check up on it himself.

Here is the article by Davis Lee in the Newark, N. J. Telegram:

I have just returned from an extensive tour in the South. In addition to meeting and talking with our agents who get our newspapers out to more than 500,000 readers in the South. I

met both Negroes and whites in urban and rural centers.

Because of these personal observations, studies and contacts, I feel that I can speak with some degree of authority. I am certainly in a better position to voice an opinion than a Negro leader who occupies a suite in a downtown New York and bases his opinions of the South from the distorted stories he reads in the Negro press and in the Daily Worker.

The racial lines in the South are so clearly drawn there can be no confusion. When I am in the South, I do not wonder if I will be served if I walk into a white restaurant. I know the score. However, I have walked into several night clubs here in New Jersey where we have a civil rights law, and have been refused service.

The whites in the South stay to their own and the Negroes do likewise. This one fact has been the economic salvation of the Negro in the South. Atlanta, Ga. compares favorably in size and population with Newark. Negroes there own and control millions of dollars worth of business. All Negro business in New Jersey will not amount to as much as in one city in the South. This is also true in South Carolina and Virginia.

New Jersey today boasts of more civil rights legislation than any other state in the union and state government itself practices more discrimination than Virginia, North Carolina, South Carolina or Virginia. New Jersey employs one Negro in the motor vehicle department. All of the other states mentioned employ plenty.

No matter what a Negro wants to do in the South, he can do it. In Spartanburg, S. C. Ernest Collins, a young Negro operates a large funeral home, a taxicab business, a filling station, grocery store, has several buses, runs a large farm and a night club.

Collins couldn't do all that in New Jersey or New York. The only bus lines operated by Negroes are in the South. The Safe Bus Company, in Winston-Salem, N. C., owns and operates a franchise, he would not be turned down, he would be lucky if he didn't get a bullet in the back.

Negroes and whites get along races. The attitude of the Southern friends, but they want to see us get ahead as a race. As a matter of fact, we are more prejudiced than those we accuse of States. Negroes were the prop-

er of the South. Negroes were the prop-

SOME PEANUT GROWERS ARE PICKING THEIR PEANUTS BEFORE THEY ARE DRY AND MERCHANABLE

SUPPORT PRICES ARE \$10 TO \$12 HIGHER PER TON FOR SPANISH AND RUNNER PEANUTS. WE RECOMMEND THAT YOU DO NOT PICK YOUR PEANUTS BEFORE THEY ARE DRY.

Peanuts containing excessive moisture will have to be bought on the basis of being dry.

We want to see you get top prices for your peanuts without being docked for excessive moisture, but your support prices are for dry peanuts only.

Letter of Thanks

27 Victoria Parade, Ashton, Preston, Lancs, England 25 Sept., 1948

As the visit of my mother, Mrs. McGowan, to your town is drawing to a close, I am writing to let you know, on behalf of the family and through the medium of your newspaper to express to the citizens of Elba, our grateful thanks for the countless acts of kindness and courtesy extended to Mother during her stay.

From the many letters received in fact all the good people of Elba who have heard of the wonderful hospitality extended by the various organizations such as The Ladies of the Church of Christ, The Methodist Church and Baptist Church, Mr. Stokes Haire, Mr. Sawyer and Mr. Andrews who, we believe were instrumental in obtaining an extension of time to remain in Elba Mr. and Mrs. Taylor and family for their numerous acts of kindness extended to Mother and to Eva and family. Mr. and Mrs. Haire and Professor and Mrs. Dixon for many invitations and visits to visit you and if we meet with a similar reception and welcome we shall be happy indeed. I ask you again that with our very best wishes to you all.

Yours Sincerely, Frances Birkinshaw

Cereals which are cooked in milk instead of water have a higher food value and improved flavor. However since milk scorches easily, a double boiler should be used.

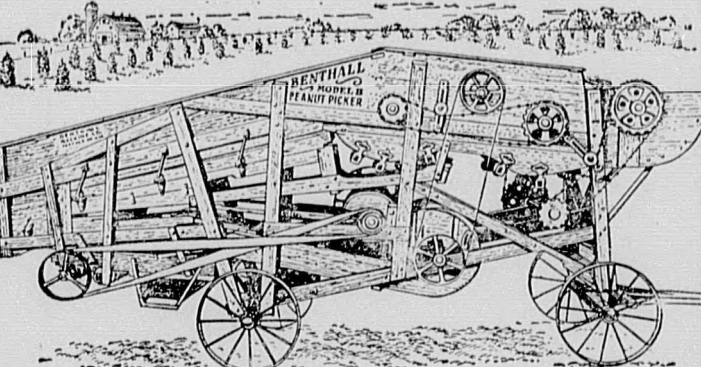

Pack summer clothes away carefully this fall so they will be in good condition for wear next spring.
